In the Claims

Claims 1-20 (Cancelled)

Claim 21 (New):   A method of using video displayed bar code data, the method comprising:

transmitting bar code data to a computing device;

displaying the bar code data on a video display associated with the computing device;

scanning the bar code data from the video display;

decoding the scanned bar code data into information;

using the information, the step of using performed by the computing device.

Claim 22 (New):   The method of claim 21 wherein a first software application is executing on the computing device during the step of displaying and wherein the step of using the information is using the information within a second software application executing on the computing device.

Claim 23 (New):   The method of claim 21 further comprising creating the bar code data.

Claim 24 (New):   The method of claim 21 further comprising using the information in a second software application.

Claim 25 (New):   The method of claim 21 wherein a high scan rate LED scanner is used for scanning the bar code on the video display, the scanner operating at 100 or more scans per second.

Claim 26 (New):   A new method of bar code data interchange, the method comprising:

2

viewing a bar code on a video display, the video display associated with a computing device;

scanning the bar code on the video display;

converting the scanned bar code into data accessible by the computing device.

Claim 27 (New):   The method of claim 26 further comprising inputting the data into a

desired location.

Claim 28 (New):   The method of claim 26 further comprising creating a bar code and

sending the bar code to a desired recipient to be viewed by the desired recipient on the video

display.

Claim 29 (New):   The method of claim 26 wherein the step of scanning is scanning with a

high rate LED scanner operating at 100 or more scans per second.

Claim 30 (New):   The method of claim 26 wherein the computing device is executing a first

software application during the steps of viewing and scanning, the first software application

providing for displaying the bar code.

Claim 31 (New):   The method of claim 30 further comprising using the data in a second

software application executing on the computing device.

Claim 32 (New):   The method of claim 30 wherein the first software application provides for

displaying e-mail messages.

3

Claim 33 (New):   The method of claim 31 wherein the second software application provides

for displaying e-mail messages.

Claim 34 (New):   The method of claim 30 wherein the first software application provides for

displaying a web page.

Claim 35 (New):   The method of claim 31 wherein the second software application provides

for displaying a web page.
